## Profile

Patient-focused RN with 12+ years of experience in post-operative care and rehabilitation. Administered care using individual care plans, providing feedback when needed to adjust care levels. Demonstrated consistently high levels of patient care and compassion, blending exceptional care with emotional support.

## Professional Experience

### **Registered Nurse, 123 Rehabilitation Center, Orlando, FL**

*January 2013-Present*

- Support an interdisciplinary team with direct nursing care for patients and assist with developing care plans to improve patient outcomes
- Monitor, mentor and coach a team of more than 15 LPNs and CNAs during original certification and annual training sessions
- Provide exceptional support activities including sterilization of instruments, setting up exam rooms and assisting with patient hygiene

### **Registered Nurse, 456 Nursing Home, Sarasota, FL**

*March 2008-January 2013*

- Conducted comprehensive assessments for new patients and prepared individualized care plans in collaboration with physicians for a 175-bed unit
- Provided hands-on care such as wound dressing, tracheostomy care, colostomy care and gastronomy tube care and feedings
- Developed good rapport with elderly patients and explained the importance of following prescribed drug regimens and diets
