Profile

Registered nurse with an extensive background in pediatrics committed to providing high-quality and compassionate care to young patients. Experience includes PICU, intubations, defibrillation, IV starts, A-line setups, splinting, suturing and other emergency stabilization procedures. Recognized for exceptional ability to build rapport with patients and deliver quality nursing care.

Professional Experience

Registered Nurse, 123 Children's Hospital, Wilmington, DE

January 2015-Present

- Effective communicator, recognized by a supervisor as an exceptional patient advocate who assisted patients and families while delivering top-notch care
- Coordinate events to give long-term patients more entertainment options and boost their mood while suffering from debilitating illnesses — activities include parties, spa days and crafts
- Work with local nonprofits on fundraisers to expand the hospital children's library and incorporate items like tablet computers and game consoles

Registered Nurse, ER Department, 456 Hospital, Atlantic City, NJ

March 2011-January 2015

- Earned distinction for sound decision-making skills and quick reaction times that helped save patients at a busy trauma center that often served more than 200 patients daily
- Supervised a team of 6 LPNs and 10 CNAs and mentored first-year nursing students and new grads
- Communicated as the voice of the Trauma Center on committees such as the JCAHO Readiness Taskforce and the Readmission Reduction Planning Committee
