Profile

Enthusiastic high school teacher with seven years of experience teaching biology and anatomy to students in grades 10-12. Well-versed in tested and successful teaching methodologies designed to promote student performance.

Professional Experience

High School Science Teacher, New Horizons STEM School, Atlanta, GA

August 2015 – Present

- Designed and implemented new laboratory protocols for grades 10-12
- Modify classroom interaction and teaching style to meet the needs of students with different modes of learning
- Introduce hands-on models and in-class experiments to encourage student participation
- Lead workshops discussing testing strategies for standardized tests, resulting in increased average test scores
- Planned and organized the annual 10th grade trip to the U.S. Space and Rocket Center

High School Biology Teacher, Settingdown High School, Marietta, GA

August 2013 – July 2015

- Taught 9th and 10th grade biology and honors biology for classes of up to 25 students
- Served on building planning committee which helped develop 5-year plan for fundraising and building goals for new school expansion
- Promoted an exciting learning environment that increased student participation
- Developed new teacher-parent communication tools
