Profile

Dedicated nursing student with a 3.75 GPA and a strong desire to provide compassionate care to patients in an acute-care setting. Completed three clinical rotations in the medical/surgical, oncology and step-down units of a busy urban hospital.

Key Skills

- Ability to conduct in-depth patient assessments using examination, observation and interviewing skills
- Excellent communication skills, especially when educating patients on their conditions or explaining to family members what kind of assistance a patient needs when returning home
- Skill in placing intravenous lines, catheters and nasogastric tubes with a high level of accuracy and concern for the patient's comfort
- Extensive experience using EPIC, Cerner, GE Centricity and other EMR software to maintain patient records

Education

Bachelor's of Science in Nursing Student, 3.75 GPA

Florida State University, August 2017 - Present

2019 Poster Presentation on the Use of tPA in Stroke

- Assisted principal investigator in collecting data on the use of tissue plasminogen activator (tPA) in treating stroke patients
