EDUCATION

Bachelor's of Science in Nursing Student

California State University,
Los Angeles
January 2017 - Present

KEY SKILLS

- Patient assessment and monitoring
- Extensive experience assisting patients with activities of daily living
- Excellent time management, especially when caring for multiple patients in an acute-care setting
- Educating patients on managing chronic diseases and caring for their wounds after surgery

CERTIFICATIONS

- California Nurse Assistant
01731837

Nursing student with five years of experience as a certified nursing assistant, active CPR certification and experience administering first aid. Expected to complete BSN degree in December 2020. Completed coursework includes introduction to psychology, gerontology, microbiology, mathematics for nurses, pharmacology and nursing fundamentals.

PROFESSIONAL EXPERIENCE

Certified Nursing Assistant

Green Grove Nursing Home, Los Angeles, CA | July 2018 - Present

- Create a safe environment by escorting residents to the restroom, assisting with the use of walkers and wheelchairs, identifying residents at an increased risk of falls and eliminating fall hazards from private rooms and common areas
- Measure and record patient vital signs in electronic medical record system
- Inform the charge nurse of any changes in a resident's medical status
- Assist residents with basic activities of daily living
- Turning residents at regular intervals to prevent pressure sores

Student Nurse

Kindred Hospital, Los Angeles | March 2020 - July 2020

- Provided direct care to an average of five patients per shift while under the supervision of the charge nurse and clinical preceptor
- Administered medications using the oral, topical and subcutaneous routes
- Observed patients and used the information to develop comprehensive care plans to be approved by the nurse manager
- Changed dressings and performed other types of wound care
- Monitored patients following surgical procedures and alerted the nurse manager to any concerning symptoms
