

Jessica Lang

New York, NY 12345 jessicalang@example.com (123) 456-7890 [LinkedIn](#) | [Portfolio](#)

A results-driven Computer Scientist with 12+ years of professional experience specializing in network design, project management, Cisco, and VMware. A proven track record of deploying and maintaining LAN/WAN infrastructure for enterprise companies. Adept at building and leading high-performance teams to deliver innovative technical solutions.

Education

Bachelor of Science (B.S.) Computer Science

University of Florida,
Gainesville, FL
September 2009 – June 2013

Key Skills

- Technical Project Management
- Technical Leadership
- Cisco Products
- VMware
- Network Security

Certifications

- Cisco Certified Design Professional, 2016
- VMware Certified Advanced Professional 6 – Data Center Virtualization Design, 2015
- CompTIA A+, CompTIA, 2013

Professional Experience

Senior Network Engineer

Chestnut Systems, New York, NY | November 2016 – Present

- Lead team of 15+ IT specialists in designing and implementing network upgrades to Cisco 6500-E, including migrating over 100+ WAN connections across 10 locations
- Manage and troubleshoot over 500 servers, maintain 99.99% uptime, and implement remote access to servers for onshore and offshore teams during expansion
- Configure, upgrade, and troubleshoot Cisco switches and routers and implement new preventative maintenance protocols, resulting in an \$80K reduction in annual repair costs

Network Engineer

Pine Network Solutions, New York, NY | June 2013 – November 2016

- Designed and installed private and public wireless services for public parks and buildings, configured Wi-fi networks, and implemented user access protocols
- Conducted security assessments and made recommendations for remote access, disaster recovery, and server security, monitored network capacity and performance, and resolved complex network problems
