

Professional Experience

Master Electrician

Morris Construction Co., Nashville, TN | February 2018 – Present

- Manage residential construction and industrial electrical projects valued at \$1.5M-\$20M, oversee pre-construction meetings, analyze blueprints and building codes, and ensure alignment with business requirements for commercial customers
- Coordinate cross-functionally with construction teams to execute large-scale projects, and ensure compliance with building codes, OSHA safety, and NEC codes
- Lead a team of 10+ apprentice and journeyman electricians, oversee the safe installation of electrical components and systems, and perform safety inspections

Journeyman Electrician

Jackson and Diamond Electrical Services, Nashville, TN | June 2013 – February 2018

- Supported complex installations of electrical wiring and systems for residential clients, utilized ohm meters, IC testers, and dial indicators to obtain precise measurements and systems readings, and conducted safety inspections on electrical equipment
- Interpreted electrical schematics, blueprints, and building codes and coordinated with electricians to identify cost-effective solutions for customers

Education

Electrician Program

Nashville Trade School, Syracuse, NY, September 2009 – June 2011

Certifications

- Project Management Professional (PMP), PMI, 2018
- Master Electrician, State of Tennessee, License #123456
