101 Park View Ln., Mendota Heights, MN

Profile

Welder with eight years of experience, five in fabricating and three as a welding inspector. Friendly personality that's delighted to be given a chance to help less experienced welders and make connections with others, both fellow employees and clients. Thorough experience with layout, cutting, blueprint reading, and die-cutting.

Professional Experience

Welding Inspector, Anderson Construction, St. Paul, MN

October 2017 - Present

- Assessed the strength and quality of welds
- Ensured safety of the worksite by assessing the degree to which a company was adhering to safety laws and best practices
