PROFILE

A results-driven Welder with eight years of experience specializing in metal fabrication, welding inspections, blueprint reading, and die-cutting. A proven track record of mentoring apprentice welders and performing inspections to ensure alignment with quality standards.

PROFESSIONAL EXPERIENCE

Welding Inspector

Anderson Construction, Minneapolis, MN | March 2018 – Present

- Perform comprehensive inspections to assess the strength and quality of welds for multi-million-dollar construction projects, recommend alternative welding techniques, and analyze blueprints to ensure exact measurements
- Deliver training to 15+ welders on OSHA safety standards and ensure compliance with safety protocols, resulting in a 30% reduction in workplace incidents

Welder

JC Fabricating, Minneapolis, MN | June 2015 – March 2018

- Analyzed and interpreted blueprints to ensure alignment with customer specifications, created metal layouts, and performed a variety of metal fabrication activities, including cutting, bending, and assembling
- Utilized flux core, arc welding, and gas welding techniques to fuse metal components in compliance with OSHA safety standards

EDUCATION

Associate of Applied Science (A.A.S) Welding Technology

Minneapolis Technical College, Minneapolis, MN
September 2013 – June 2015

KEY SKILLS

- Mechanical Engineering
- Arc Welding
- Gas Welding
- Quality Control
- OSHA Safety

CERTIFICATIONS

- Certified Welding Inspector (CWI), AWS, 2018
- Certified Welder (CW), AWS, 2015
