A senior civil engineer with over 10 years of experience in the planning and construction of buildings, roads, dams, roads, and underground systems. A proven track record of leading high-performance construction teams to execute multi-million-dollar projects. Adept at identifying opportunities to mitigate safety risks and enhance project delivery.

Education

Bachelor of Science (B.S.) Civil Engineering
University of Syracuse, New York, NY
September 2009 – June 2013

Key Skills

- Engineering management
- Infrastructure design
- AutoCAD
- Project management
- OSHA safety

Credentials

- Project Management Professional (PMP), PMI, 2016
- Fundamentals of Engineering (FE) Certification, NCEES, 2013

Professional Experience

Senior Civil Engineer

Coulhart Construction Co., New York, NY | August 2016 – present

- Manage a dam rehabilitation project and four bridge construction projects with budgets of over \$10 million, determine structural design requirements, and ensure regulatory compliance
- Perform hydrologic analyses utilizing PondPack, HEC-1, and TR-55 methodology to calculate curve numbers, time of flows, and concentrations for incremental storms
- Lead a team of over 20 civil engineers, soil engineers, and architects, serve as the point of contact for client stakeholders, and oversee more than 60 contractors
- Complete and submit permitting packages for dam and bridge reconstruction projects

Civil Engineer

DDS Consulting, Inc., New York, NY | June 2013 – August 2016

- Oversaw more than 15 constructions valued at \$1.5 to \$3 million, supervised teams of over 25 engineers, architects, and contractors, and performed work site inspections
- Drafted specifications and project plans to ensure compliance with all QA requirements
- Conducted job hazard assessments and applied safety mitigation techniques to reduce risks and ensure compliance with OSHA safety standards
