Professional Profile

Military-trained paramedic with 8+ years experience who excels in high-stress situations. Received awards for consistently quick and accurate patient assessments and excellent communication with both patients and health professionals. Spent two years providing medical aid in a war zone, and completed specialized training in orthopedics and trauma.

Professional Experience

Emergency Medical Technician - Advanced, The University of New Mexico Health System-Emergency, Albuquerque, NM

January 2018 – Present

- Attend emergency calls and deliver basic and advanced life support.
- Listen carefully to gather essential information about patient conditions.
- Report assessment conclusions and diagnosis to emergency room health professionals.
- Assess each call scene for personal safety.
- Partner with law enforcement and fire departments to most effectively answer aid callers.
- Offer step-by-step medical guidance to callers who need aid prior to arrival.

68W Combat Medic Specialist, U.S. Army, Fort Benning, OK

June 2013 - December 2018

- Administered emergency medical treatment to other troops during two non-consecutive one-year deployments in Afghanistan.
- Prepared patients and medical supplies for surgery.
- Received speciality training in orthopedics.
- Interviewed patients for medical history, organized blood samples for the lab, and prepared shots/other medications while stationed at a military hospital.
