Alison Quinn
Senior Hiring Manager
Abbott Laboratories
(678) 901-2345
aquinn@email.com

Dear Ms. Quinn,

During my practicum placement in the biological sciences sector, I was singled out by my assessor for my accuracy, efficiency, and dedicated work ethic. I hope to apply these skills in the role of Staff Statistician at Abbott Laboratories.

Assessed as one of the top 10 highest-performing students in my year and with excellent proven knowledge of biomedical statistical analysis, I'm intrigued by Abbott Laboratories' mission to improve health care for millions of people worldwide. I believe that my skills and experience to date can help Abbott Laboratories provide outstanding care and diagnostics for its patients with diabetes. My key achievements include:

- Achieving consistent scores of 85% and above in all theoretical and applied coursework modules
- Named top-performing student in my cohort for computational management in 2020
- Commended three times during assessment cycles for data handling proficiency

I would like to tell you more about how my skill set can make me an asset to the statistical team at Abbott Laboratories. Please don't hesitate to contact me to arrange a suitable interview time.

Sincerely,

Leonard Marsden

P.S. I would love to explain how I contributed to a project on my practicum placement that reduced departmental spending by 20%.
