Katrina Parks
Senior Hiring Manager
La Clinica de La Raza
(987) 654-3210
kparks@trustedhealth.com

Dear Ms. Parks,

During my preceptorship at the Saint Francis Memorial Hospital, I received 93% positive evaluations. My preceptor praised my dedication to patient care, attention to detail, and strong work ethic, naming me one of the strongest precept nurses in my cohort. I am excited to apply these skills as a Primary Care Nurse at La Clinica de La Raza.

I firmly believe that high-quality health care should be available to everyone, so I am drawn to La Clinica de La Raza's mission to provide treatment and care to those who have been refused access elsewhere. I believe that my achievements to date make me an excellent candidate for the role:

- My preceptor frequently mentioned my clear communication skills and dedication to patient safety and dignity in my formal evaluations.
- I achieved 95% positive feedback for time management and organizational skills.
- I was praised during evaluations for my high competence levels working with Electronic Health Record programs.

I would like to schedule an interview to discuss how my range of skills can help La Clinica de La Raza achieve the best outcomes for its patients. Please feel free to contact me with a convenient time to meet.

Sincerely,

Johann Lovell

P.S. I would love to explain how I managed to achieve a score of 98% for medication reviews during my preceptorship.
