Marisa Bauer
Senior Hiring Manager
ViaCyte
(765) 432-1098
m.bauer@youreemail.com

Dear Ms. Bauer,

This year I achieved a score of 100% for my project on Information Security Management in my degree course at the University of San Diego. My assessors cited my attention to detail and in-depth technical understanding as their reasons for awarding this grade. I hope to use my talents and abilities to provide outstanding IT support to ViaCyte's customers in 2021.

As a dedicated individual committed to using my IT skills to improve people's lives, ViaCyte's mission to improve diabetes care through advanced technologies is inspiring. My following achievements demonstrate how I can help you support your patients:

- Receiving praise four times during my degree work placement for accuracy and attention to detail
- Achieving a score of 95% for my fourth-year professional project on social network analysis
- Working collaboratively with teammates on placement to troubleshoot a challenging and time-sensitive IT issue, restoring full service within 2 hours

I hope to meet you to discuss how my strong troubleshooting abilities and software maintenance skills can help ViaCyte's patients manage their condition optimally in 2021. I am available to attend an interview at your convenience.

Sincerely,

Mason Alford

P.S. I would love to explain why I was recognized as the top-performing student in my cohort for web applications development.
