Hardworking and disciplined newly-certified architect with internship experience in designing commercial buildings and creating accurate 2D and 3D technical images. Talent for working collaboratively and thinking creatively to solve complex design and sustainability issues. Skilled at creating precise specifications and communicating clearly with contractors and other key personnel.

Key Skills

- Proficient in Revit, AutoCAD, Rhinoceros, and Sketch Up software
- Problem-solving and critical thinking
- Extensive knowledge of building codes and regulations
- Keen attention to detail
- Strong written and verbal communicator

Professional Experience

Architect Intern

HGA, Sacramento, CA | June 2020 - December 2020

- Assisted the architectural team with building codes and regulation research
- Worked collaboratively with a multidisciplinary team, including tradespeople, independent contractors, and district representatives
- Visited proposed building sites to take measurements and observe characteristics, reporting findings to the senior architect
- Created detailed and accurate technical drawings and performed 3D modeling tasks

Architect Intern

LPA Incorporated, Sacramento, CA | June 2018 - September 2018

- Assisted with the design of corporate buildings and generated precise measurements and specifications
- Assessed architectural plans for sustainability and environmental impact
- Created 3D images using Rhinoceros and Sketch-Up software
