Dear Mr. Durrance,

Reach the Children's life-changing work during my childhood inspired me to forge a career path that merges with the vision of your organization. I am confident that my education has equipped me to enhance your team as a Product Manager for South America Outreach.

While I double-majored in mechanical engineering and Latino culture at the University of Miami, my passion for improving the lives of underserved children grew along with my skill set. A four-week internship with Outreach360 enabled me to:

- Train native workers to produce a saleable product with gross revenue receipts of \$250,000
- Encourage sales teams to increase client base
- Oversee factory specifications to ensure the safety and productivity of workers

I am eager to connect with you and discuss how I can contribute to Reach the Children's mission of building the next generation. Please contact me at your earliest convenience to set up an interview.

Sincerely,

Belinda Figueroa

P.S. - I'd love to tell you how my intercultural mentoring program at the Boys and Girls Club here has encouraged five middle school students to boost their grades and plan for college.
