c.franklin@youreemail.com

Dear Ms. Franklin,

During my final year of study at the Design Institute of San Diego, my project on creating sustainable interior environments was showcased in the school's monthly magazine. The article praised my strong ability to combine modern aesthetic and practical considerations with eco-friendly features. I am excited to apply this knowledge as a junior designer at Living Spaces.

As an energetic new graduate with a special interest in sustainable design, Living Space's strong emphasis on minimizing environmental impact is the ideal fit for my skill set. I am motivated by the opportunity to work in such an innovative and fast-growing company. My recent accomplishments include:

- Collaborating with three designers on my practicum placement at Harley Ellis Devereaux to create a design pitch that won a multi-million dollar contract
- Receiving a score of 98% for my coursework module on color theory and application
- Leading a team of 12 classmates to organize and run an exhibition displaying the interior design department's project work

I would like to attend an interview to explore how my skills can benefit your organization in 2021. Please get in touch to schedule a meeting.

Sincerely,

(Insert Signature Here)

JULIA EVERARD

P.S. I would love to explain why I consistently ranked in the top 2% of my cohort for CAD.
