**KEITH HOWARD**

Human Resources Manager  
Rosewood Family Health Center  
(503) 772-4335  
keith@rfmh.org

Dear Mr. Howard,

While earning my bachelor's of science in nursing, I chose a Rural Health Clinic for the medical placement portion of my degree program. This experience has led me to dedicate my career to serving low-income and otherwise disadvantaged communities.

I feel a connection with Rosewood Family Health Center's focus and commitment to helping underserved populations. With my training in a rural setting, I'm hopeful that I can bring this same positive energy to RFHC. I'm looking forward to instilling an even greater sense of community and excellence at RFHC. Here are some of my past successes:

- Graduated at the top of my nursing program's 2021 class with a perfect 4.0 GPA
- Mastered eClinicalWorks, Epic, and other popular healthcare software platforms during my medical placement training
- In preceptor evaluations, I often received praise for my bedside manner and communication skills while working with patients

Please contact me at your earliest convenience to schedule an interview to talk more about how I can take RFHC's sense of teamwork and high standards even further. I'm available to connect with you at a time that fits your schedule best.

Best regards,

**DAVID MOORE, RN**

P.S. I'd love to explain how I was able to maintain a 97% medication review score during my preceptorship.
