Diligent medical laboratory technician who is focused under pressure and already trusted to conduct most testing and equipment work independently by supervisors at one of the region's most respected hospitals. Earned one of the top scores nationally on the Association of Clinical Pathology's certifying exam. Eager to continue honing skills in the workplace.

Professional Experience

Medical Lab Tech

Rush University Medical Center, Chicago, IL | July 2021 – Present

- Label and process blood, urine, and other body samples quickly and accurately despite the pressures of working in one of the nation's leading medical facilities
- Work overnight shifts and serve on the team that responds to urgent calls from emergency and other departments from 7 p.m. to 7 a.m.
- Assess the laboratory's quality control using standard laboratory tests and measurement controls, ensuring that all safety and risk-management requirements are met
- Investigate abnormal results using established guidelines and determine necessary steps to resolve them, under the direction of a technologist
