Louis Gentile

Senior Hiring Manager
ArkTech Software Corp.
(987) 654-3210
louisgentile@arktech.com

Dear Mr. Gentile,

As you can see from my attached resume, I have over 14 years of experience as an executive and CEO within the technology industry. My greatest accomplishment was building Solaris Software from a start-up company into a \$20 million business. I believe my vast experience in creating scalable business models within the software space would be a strong asset to your company in the CEO position.

ArkTech Software Corp's impressive reputation as an industry leader in Software as a service (SaaS) solutions aligns with my background as an innovator in the software solution market. I am confident my experience as a technology executive would aid the growth of your organization based on my career achievements:

- Built, managed, and scaled a start-up software solution business into a multi-million-dollar corporation, which West Sun Software Inc. acquired for \$100 million in 2020
- Developed business strategies, analyzed market trends, and drove the development, deployment, and delivery of SaaS solution products, generating \$8 million in annual revenue
- Created a scalable business model to facilitate the growth of 80% to 120% year-over-year (YOY)

I would like to schedule an interview to discuss how my knowledge of the software solution market could aid your company. You can contact me at your convenience for any questions you may have. Thank you for your time and consideration.

Sincerely,
