Professional Experience

Senior Medical Surgical Nurse Supervisor

Crozer Hospital, Chester, PA | April 2016 – Present

- Deliver patient-centered nursing care to a diverse group of patients across the acute care surgical unit, which includes managing cases, performing assessments, and delivering care based on age, risk factors, and cultural needs
- Manage a team of nurses in a 250-bed hospital, provide support, and coordinate patient flow, admissions, and discharges to ensure efficiency and quality of care
- Coordinate with physicians to provide patient care across Urology, Oncology, Gynecology, and Colorectal surgical lines
- Maintain, update, and manage patient medical records, ensure compliance with HIPAA standards, and improve organizational processes to enhance workflows

Medical Surgical Nurse

Taylor Hospital, Ridley, PA | June 2014 – April 2016

- Coordinated with multidisciplinary healthcare teams and physicians to deliver patient-centered care in a 300-bed hospital setting
- Provided education to patients on surgical risk factors, medication side effects, and treatment plans and performed both preoperative and post-operative care
- Administered medication, assessed patients, supported physicians during procedures and exams, and conducted various forms of medical testing

Registered Nurse

Glen Riddle Hospital, Lima, PA | June 2011 – June 2014

- Delivered care to patients across the ER, administered medications, monitored treatment plans and vital signs, and provided IV therapy
- Maintained and updated electronic health records (EHR) and ensured patient confidentiality in compliance with HIPAA
