Professional Experience

UX Designer

ArkTech Ecommerce, New York, NY | May 2019 – Present

- Create a unified user experience for an e-commerce website and application, which includes leading wireframing activities and identifying new web features
- Coordinate with web developers, graphic designers, and engineers to improve website interactions, which resulted in a 30% increase in user satisfaction
- Perform testing and research on user journeys, develop storyboards and web copy, and deliver presentations to the UX team on design enhancements

UX Designer

SaaS Solution Website, New York, NY | May 2018 – May 2019

- Defined UX strategy for the website of a technology company delivering SaaS solutions to small and medium-sized businesses, which included partnering with a team of graphic designers to enhance visual storytelling
- Analyzed feedback from customers and identified design solutions to improve web functionality and interactions
