Software Engineering**

Columbia University, New York, NY
September 2016 - May 2020

KEY SKILLS

- Software Solution Design
- Mobile Application Development
- Python
- New Feature Development
- Project Management

CERTIFICATIONS

- Certified Software Development Professional, Expected 2022
- Certified Associate Project Manager (CAPM), Expected 2022

A results-oriented Software Engineer with entry-level experience, specializing in designing custom software solutions and driving new feature development. A proven track record of coordinating with on-shore and off-shore teams throughout the application development cycle. Adept at defining user requirements and driving scalability for customers.

PROFESSIONAL EXPERIENCE

Software Engineer

Accelerated Software Solutions Inc., New York, NY | May 2020 – Present

- Coordinate with the software engineering team to develop custom applications for enterprise customers valued at up to $700K, including performing debugging activities and providing recommendations to improve user functionality
- Perform testing and support the development of features for mobile applications in React and Android environments
- Attend meetings with the project team to identify potential risks, resolve project roadblocks, and ensure compliance with user specifications and requirements

ACADEMIC EXPERIENCE

Software Engineering Projects

Columbia University, New York, NY | May 2019 – May 2020

- Developed an application using Python to track and monitor user phone usage, which included designing the UI and developing a feature to alert users to take a break from the device after a certain amount of time
