A Senior Mechanical Technician with 10+ years of experience supporting multi-million-dollar installations and maintenance projects within the industrial industry. A strong history of building and leading diverse technical teams to enhance operational efficiency. Adept at eliminating failures and reducing downtime to maximize plant production.

Key Skills

- Industrial Equipment
- Preventative Maintenance
- Equipment Testing
- OSHA Safety
- Process Improvement

Professional Experience

Senior Mechanical Technician

Brooklyn Manufacturing, New York, NY | May 2016 – Present

- Oversee a team of eight mechanical technicians conducting preventative maintenance, repairs, and installations for industrial equipment to maximize uptime and improve efficiency for a leading manufacturing plant valued at over \$10M
- Diagnose, troubleshoot, and repair critical issues with mechanical systems and equipment
- Ensure proper performance of all plant maintenance processes/systems and production equipment through effective use of planning, troubleshooting, and/or diagnostics skills
- Manage a \$250K inventory, including parts, industrial equipment, and components

Mechanical Technician

Johnson Partners Manufacturing, New York, NY | May 2011 – May 2016

- Maintained, repaired, and enhanced high-production assemblies, performed testing on mechanical components, and ensured on-time delivery for a manufacturing plant delivering automotive parts to enterprise customers
- Analyzed and interpreted assembly blueprints, schematics, and diagrams
- Attended daily team meetings to discuss safety concerns and develop strategies to improve compliance with OSHA and plant safety regulations

Education

Associate of Science (A.S.) Mechanical Engineering

Brooklyn Community College, Brooklyn, NY May 2009 - May 2011
