

David Morey

A Network Administrator with three years of professional experience, specializing in network infrastructure, system administration, Cisco products, and networking. A proven track record of collaborating with cross-functional teams to conduct complex system and network upgrades.

Professional Experience

Network Administrator

Better Technology Partners, New York, NY July 2019 – Present

- Plan and execute a network domain migration and transferred data from 200+ PCs, laptops, phone systems, and peripherals in support of 150 users
- Update all user desktop, laptop, and network servers with Active Directory Group Policies, Windows Server Update Services, and McAfee Antivirus
- Perform daily and weekly backups of servers and network devices
- Manage operations and configuration of network infrastructure, including routers, switches, and WAP

Network Administrator

Hartford Technologies, New York, NY May 2018 – July 2019

- Configured, implemented, and supported virtual desktop infrastructure and wireless networks using Linux systems
- Analyzed network environments and identified potential hardware and software enhancements to improve network performance
- Provided technical support for help desk staff and the IT team, which included troubleshooting complex networking issues
