- Second in Command (SiC): 800 hours
- Night: 480 hours
- X-Country: 420 hours

Key Skills

- Commercial Aviation
- Flight Plans
- Navigation
- Federal Aviation Regulations (FARs)
- Flight Safety

Professional Experience

Airline Pilot

Southwest Airlines, San Diego, CA | July 2020 – Present

- Serve as pilot in command (PiC) for commercial airline flights, create flight plans, and operate Boeing 747-400 aircrafts
- Coordinate with first officer and flight crews to ensure the safety of passengers and compliance with state and federal regulations
- Conduct pre-flight inspections on commercial airplanes, identify defects and issues, and create reports on required maintenance
- Evaluate weather conditions prior to flights and alter flight plans accordingly

Second in Command

Air Charter Services, San Diego, CA | May 2018– July 2020

- Provided flight and navigation support to the pilot in command (PiC) as the second officer, which included adjusting flight plans based on weather conditions and turbulence
- Performed safety inspections, interfaced with maintenance teams, and ensured adherence to federal aviation laws and regulations
