EDUCATION

Bachelor of Science (B.S.) Software Engineering

University of San Francisco,
San Francisco, CA
September 2018 - May 2022

KEY SKILLS

- Software Engineering
- Python
- RestAPIs
- Application Development
- Software Development

A recent graduate in software engineering with entry-level experience, specializing in Python, software development, application design, and communication. Adept at collaborating with diverse teams to achieve project objectives.

ACADEMIC EXPERIENCE

Software Engineering Projects

University of San Francisco, San Francisco, CA
September 2020 – May 2022

- Developed a GUI application in Python to analyze documents for plagiarism, which included using the Natural Language Toolkit (NLTK) and Google Search API to retrieve online articles with matching text
- Built a JavaScript application to quiz software engineering students on data analytics and machine learning concepts
- Coordinated with a team of software engineering students to design a bug tracking system to diagnose and resolve issues for software applications automatically

INDEPENDENT PROJECTS

Independent Programming Project

January 2021 – May 2022

- Programmed four Reddit bots to parse information across various subreddits using Python, which included writing scripts and determining functions
- Designed an application to monitor and track trends in cryptocurrency pricing using RestAPIs and JavaScript
