A Lab Assistant with three years of experience, specializing in clinical research, laboratory safety, animal studies, and phlebotomy. A strong history of supporting key research initiatives to study novel approaches and treatments for congenital health defects.

PROFESSIONAL EXPERIENCE

LAB ASSISTANT

University of San Diego Research Center, San Diego, CA | October 2020 – Present

- Provided support for a variety of laboratory experiments and clinical studies, including managing animal care, performing data collection, sample storage, and analysis
- Deliver training to three lab assistants on quality control standards, OSHA safety, and decontamination procedures for laboratory equipment
- Ensure compliance with ethical standards for animal testing and welfare

LAB ASSISTANT

Labcorp, San Diego, CA | May 2019 – October 2020

- Oversaw pre-analytical processes for the processing and collection of laboratory specimens for patients in a controlled, medical testing environment
- Ensured compliance with laboratory safety protocols and procedures, including strict usage of PPE and adherence to Covid-19 safety guidelines
