PROFESSIONAL EXPERIENCE

IT AUDITOR

SD7 Med Services, San Diego, CA
July 2016 to Present

- Carried out a technological position audit to shed light on the company's current and future technology needs
- Audited systems development to confirm that incoming technical systems would align with company objectives
- Assessed and audited controls on client-connected servers, helping lay the groundwork for improved customer relations
- Broadened role to include additional audit duties, reducing the company's reliance on outside consultants

IT AUDITOR

218 Health, San Diego, CA
July 2011 to May 2016

- Coordinated with outside audit consultants and legal representatives
- Delivered engaging presentations to the executive team on audit results and recommendations
- Created, monitored, and continually honed new audit processes
- Generated valuable competitive intelligence by leading audit that clarified the company's level of innovation vs. key competitors
