## PROFESSIONAL EXPERIENCE

### PEDIATRIC NURSE

St. Luke's Children's Hospital,  
San Diego, CA  
May 2019 – Present

- Deliver specialized care to diverse patient populations in a pediatric oncology unit with 60-beds, including providing clinical support for leukemia, bone-marrow transplants, emergency surgeries, and chemotherapy
- Communicate with parents, families, and patients to provide education on long-term prognosis, treatment plans, and medical conditions with empathy and compassion
- Submit patient referrals to the Make-a-Wish Foundation for children suffering from terminal conditions and coordinate with hospital staff to facilitate requests

### PEDIATRIC NURSE

Light of Hope Medical Center,  
San Diego, CA  
May 2017 – May 2019

- Supported the delivery of high-quality care to pediatric patients, adolescents, and young adults suffering from solid tumors, hematology conditions, leukemia, and malignant hematology, which included providing emotional support to patients and families
- Coordinated with attending physicians to develop, evaluate, and implement comprehensive nursing plans for patient care
- Administered medication, monitored patient vital signs, created medical reports, and alerted medical teams to changes in patient condition and symptoms
