PROFILE

A Database Administrator with entry-level experience specializing in access management, system administration, Oracle, and MySQL. A proven track record of managing complex databases and ensuring the confidentiality of sensitive information.

PROFESSIONAL EXPERIENCE

Database Administrator

Law Offices of Gentile, Roberts, and McCleod, Philadelphia, PA | May 2021 – Present

- Deliver database and system administration services for a law firm with 150+ staff, oversee the administration of a large legal database, conduct queries, troubleshoot technical issues, and configure the database to ensure optimal functionality and security
- Perform updates on batches, conduct debugging activities, verify data integrity, develop access management protocols, and implement 2FA verification

ACADEMIC PROJECTS

Computer Science Projects

Temple University, Philadelphia, PA | September 2019 – May 2021

- Conducted a project to build an e-Authentication system to provide improved security, including QR codes, QTP, and 2FA user authentication
- Developed an optical character recognition system (OCR) using Python and MATLAB, which included creating an algorithm for image processing
