PROFESSIONAL EXPERIENCE

NURSE EDUCATOR

Boston Medical Center, Boston, MA
May 2018 – Present

- Develop a training curriculum and mentor program for 85+ nurses to enhance the delivery of patient care, resulting in a 10% reduction in adverse incidents
- Build, evaluate, and refine medical educational programs by compiling clinical data, and conducting peer reviews, resulting in a 15-minute reduction in average wait times
- Oversee professional development and certifications for all nurses and ensure compliance with Department of Health regulations

REGISTERED NURSE

St. Luke's Hospital, Boston, MA
May 2016 – May 2018

- Supported the delivery of medical services at a hospital with 300-beds, coordinated patient intake, and discharge, and ensured compliance with health and safety procedures
- Collaborated with multidisciplinary teams to evaluate patient symptoms and identified appropriate treatment plans based on emotional and physical needs
