## PROFESSIONAL EXPERIENCE

### SENIOR BIOMEDICAL ENGINEER

Callahan Biomedical Inc.,  
San Francisco, CA  
May 2016 – Present

- Manage R&D initiatives to enhance medical device performance, identify quality improvements, and recommend modifications to biomedical products based on client feedback, resulting in a 10% increase in equipment sales
- Deliver on-site technical support for the installation and maintenance of OR devices, including including diagnostic, surgical, cardiovascular, orthopedic, and spinal equipment
- Conduct analysis of EKGs, vital sign monitoring devices, surgical instruments, and lasers to prevent equipment failures and ensure optimal functionality

### BIOMEDICAL ENGINEER

St. Mark's Hospital,  
San Francisco, CA  
May 2011 – May 2016

- Served as the point of contact for physicians, nurses, and hospital personnel on technical issues related to biomedical equipment and provided training to 50+ staff
- Conducted preventative maintenance and repairs of medical devices, performed inspections, and executed testing to ensure compliance with electrical safety codes
