PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER

Manhattan Technology Solutions, New York, NY
May 2016 — Present

- Support large-scale web development projects for enterprise client accounts and perform quality Python coding to deliver customized solutions for web pages and applications
- Coordinate with the IT project manager, DevOps, and technical teams to resolve a mission-critical issue impacting a major client account valued at $2M
- Translate business requirements into scalable code, perform wireframing, develop prototypes, and conduct code reviews to prevent bugs and defects

FRONT-END DEVELOPER

Accelerate Inc., New York, NY
May 2014 — May 2016

- Coordinated with a team of front-end and back-end developers to create prototypes, scalable code, and wireframes for a start-up technology company delivering an innovative mobile application for credit history and personal loan consolidations
- Conducted testing on web pages, analyzed feedback from users and identified opportunities to improve web page functionality and responsiveness
