

# Yaling Zhang

A Security Intelligence Analyst with 10+ years of experience analyzing high-level security threats, evaluating political risks, and providing corporate intelligence. A strong history of performing research to gather corporate intelligence across Asia, Europe, and the Middle East.

## Professional Experience

### Senior Security Analyst

Cadence Intelligence Agency, Washington, DC | July 2016 – Present

- Define global research for a global business intelligence firm delivering high-level insights on political risks and corporate intelligence for government security agencies
- Manage, build, and develop a 20-person intelligence research department conducting due diligence and risk analysis on international markets and sensitive political issues
- Perform analysis on confidential financial data and coordinate with the corporate intelligence team to identify trends and uncover fraudulent activity

### Business Intelligence Analyst

Centerline Technologies, Washington, DC | October 2013 – July 2016

- Managed business intelligence operations for a premiere technology company, translated complex data sets into business reports, and conducted analysis on long-term market and financial trends to support data-driven decision-making
- Identified opportunities to enhance data visualization for corporate leadership by implementing a new dashboard to consolidate business intelligence insights

### Business Intelligence Analyst

Desmond Pharmaceuticals, Washington, DC | May 2011 – October 2013

- Coordinated with the business intelligence team to perform data analysis on research findings, financial indicators, and forecasting to identify business trends and risks for five pharmaceutical product lines
- Created business intelligence reports for senior management and business leaders
